Testimony on HB 301  
House Federal Relations, Energy and Telecommunications Committee  
January 24, 2007

Mr. Chairman and Members of the Committee,

My name is Molly Immen and I'm here today representing Montana Audubon.

Montana Audubon supports HB 301. We believe that the state's energy policy should have a long-term goal of relying more heavily on environmentally sustainable and renewable energy sources. Energy conservation also needs to be emphasized. We also support carbon-neutral energy sources because they do not add to global warming.
